### **The TIF Project**

The City proposes to develop/construct/install certain projects (the “TIF Project”) within the TIF District, which TIF Project may be acquired and constructed in several phases. The TIF Project include the following public improvements: road, intersection, and public property improvements (including utility relocation, pedestrian ways, curbs, lighting, landscaping, stormwater management, land and right-of-way acquisition, and related infrastructure), demolition and site preparation, and incidental costs and expenses relating to the construction and installation of such public infrastructure improvements and demolition projects, and other related public infrastructure, to be known and designated as “Redevelopment Project Plan No. 1” (the “Project Plan”), all in order to facilitate the issuance of tax increment financing obligations to finance the costs of planning, acquiring, constructing and equipping the Project Plan, being necessary public infrastructure improvements within the TIF District, and other related public infrastructure.

### **Tax Increment Financing Obligations**

To finance the costs of the TIF Project, the City proposes to use tax increment funds to finance the costs of the TIF Project, including architectural, engineering, legal and other professional fees and expenses on a pay-as-you-go basis and/or from proceeds of tax increment revenue bonds or other obligations issued by the City (the “TIF Obligations”), from time to time, in an aggregate amount not to exceed \$15,000,000, with maturities not to exceed 30 years from the date of the creation of the TIF District. Such obligations may be issued from time to time in one or more series. Proceeds of the TIF Obligations are generally planned to be used to (i) finance a portion of the costs of the TIF Project, including architectural, engineering, legal and other professional fees and expenses; (ii) fund reserves for the TIF Obligations; (iii) fund capitalized interest on the TIF Obligations, and (iv) pay costs of issuance of the TIF Obligations and related costs. To the extent that tax increment funds are available, all or portions of the TIF Project may be financed directly with such tax increment funds. See **Section II.E** for more detailed Financing information and **Section II.G** for additional information on the proposed TIF Obligations.
